

DEPLOYMENT/30 Day TDY's

Assists service members and their families in managing the challenges of deployments and separations before, while, and after they occur. Personal and Family Readiness offers the following programs:

Pre-deployment Briefing: Mandatory briefing for the military member (spouses encouraged to attend) covering: Red Cross, services for families during deployment, AFAS services, Voting, and an overview of handouts.

Global Hearts: Open to immediate family members who have a loved one currently deployed, on a remote tour, or extended TDY. Global Hearts allows deployed family members to network and interact with fellow families. Once the member has deployed, family members are placed within a community email distribution list that advertises community activities, as well as updates on what is happening in the local area.

Emergency Management: Ensures deployers have up-to-date information in AFPAAS and VRED to reinforce 100 percent accountability and distribution of emergency resources. Additionally, we brief members and their families about the operation of the Emergency Family Assistance Center at the Airman and Family Readiness Center during crisis or emergency operations.
